

COMPANY PROFILE

Mason Mercer has been operating in Australia for over 40 years, globally for over 65 years. We are the exclusive representatives for Mason Industries and Mercer Rubber in Australia.

Mason Mercer provides engineered vibration isolation solutions. With professional engineers based in Melbourne and New York we complete a wide and detailed portfolio of projects.

- • • Mason Mercer holds an inventory of over 2000 lines of product, we are the leaders in engineered vibration isolation solutions in the commercial and multi-residential markets. We have the ability in-house to engineer for large scale public works down to bespoke low volume solutions.

Mason Industries own their offshore manufacturing facilities in New York, Thailand and Mainland China. This enables us to control manufacturing from raw material procurement through to delivery. Our catalogue of over 3000 products are engineered and manufactured by Mason Industries.

Mason Mercer engineer and supply solutions for:

- ☑ swimming pools & spas
- ☑ gymnasiums
- ☑ buildings isolation
- ☑ lifts & car stackers
- ☑ plant rooms
- ☑ auditoriums & theatres
- ☑ mechanical platforms
- ☑ HVAC piping and equipment
- ☑ flexible pipe connections
- ☑ exhaust systems
- ☑ seismic design
- ☑ water treatment plants
- ☑ power stations

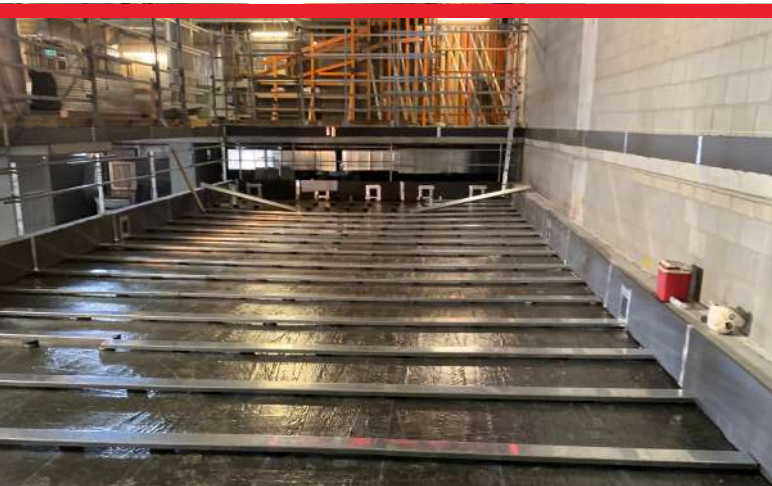

The key difference Mason Mercer has to the industry is we do not charge for our engineering time. We will provide architectural drawings of our isolation systems, seismic restraint or HVAC design free of charge.

All our isolation systems and seismic installations are supervised by a Mason Mercer project manager. Mason Mercer will co-ordinate with the project acoustic consultant, architect, structural engineer, head contractor and sub contractor during the documentation stage to ensure all details are captured prior to manufacture. We attend site multiple times throughout the project life to ensure works are undertaken in accordance with our documentation - whether that be for the jacking process of a concrete slab or to ensure adjacent formwork does not bridge out the acoustic system supporting a pool.

Mason Mercer provide solutions for isolating pools, concrete structures and buildings that can be supplied with life of the building warranty -Something no other company in our space can offer. Our size and capacity is such that we don't walk away from a project. Ever.

Please find a condensed list of some of our previously completed projects below.

SWIMMING POOLS

- / Midnight Apartments
- / Freshwater Place
- / Haven Apartments
- / The Precinct
- / The Precinct II
- / Marriott Docklands
- / Sheraton Melbourne
- / Upper West Side
