H ROCK BREAKER SHROUD ATTACHMENT

The Hushtec Rock Breaker Shroud Attachment – a revolutionary solution developed specifically to address the challenges associated with rock breaker operations.

Our attachment is designed to mitigate the hammer noise effects, control dust, and prevent abrasive injuries to personnel on-site by effectively managing flying concrete chips and debris.

Up to 20dB noise reduction

Reduces dust & Flying chip

Distribution available worldwide

5 minute install / removal

Available to suit breakers from 1T - 50T

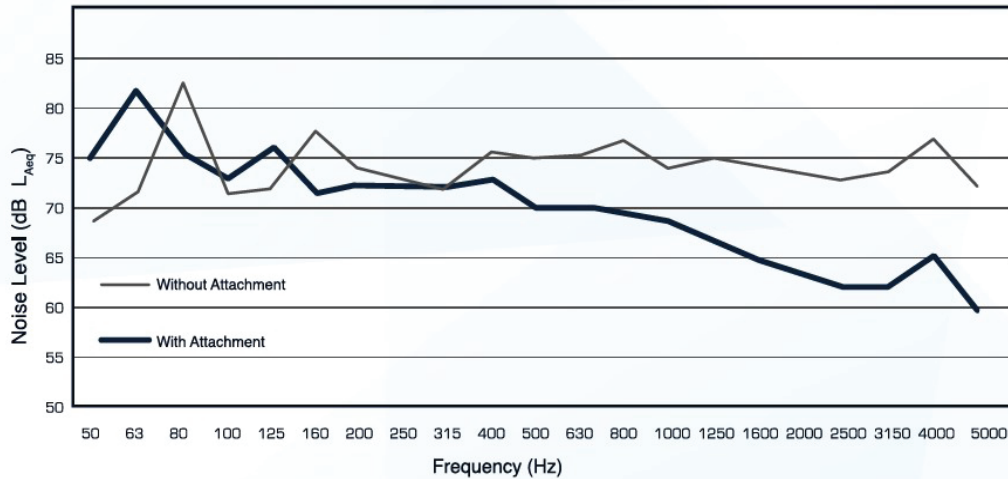

Bespoke branding available for OEM Supply

With a quick and convenient five-minute installation/removal time, you can easily incorporate this attachment into your workflow without any hassle.

It is designed to be suitable for rock breakers ranging from 1T to over 100T, ensuring versatility and compatibility across a wide range of equipment.

QUIETLY MAKING THE WORLD A BETTER PLACE

BENEFITS OF HUSHTEC'S ROCK BREAKER SHROUD ATTACHMENTS

- We take pride in designing and manufacturing our products in-house.
- Our rock breaker noise reduction attachment is compatible with all makes, models, and types of rock breakers.
- By reducing noise levels, our attachments provide numerous advantages for nearby residents, workers in close proximity to demolition sites, and even wildlife that may be disturbed by excessive noise.

You can customize the attachment with your company's logo or branding, promoting your business while prioritizing safety and efficiency.

HUSHTEC[®]

Your global leader in the development and manufacturing of noise control solutions and technologies.
